SOLUTIONS TO PROBLEMS AROUND THE WORLD

RX Polyaspartic Range

Decorative Resin Flooring Systems

Robex Gauteng | Robex Western Cape | Robex Eastern Cape | Robex KZN | Robex Australia

RX Polyaspartic Flooring

This unique range of resin flooring offers a highly decorative yet robust finish. The RX Polyaspartic range can be customised to suit the needs of the client and offers fantastic features and benefits including minimal VOC'S as well as 3 times the abrasion and scratch resistance of epoxy and polyurethane flooring. These resins have been engineered to provide a durable, yet aesthetically pleasing system which can be used in a variety of applications.

Products

RX Abstract Metallic

A luxurious metallic finish that will create a feeling of quality and opulence in any environment. It not only provides a beautiful, abstract look and feel but is both durable and functional.

Features and Benefits

- Crack and chip resistant
- Easy to clean and maintain
- 12 vibrant colours available
- UV Stable
- Unique application techniques (brilliant depth and colour variations)
- 3 times the scratch and abrasion resistance of conventional epoxy or polyurethane systems
- VOC Friendly

RX Supa-Aspartic UV

RX Supa-Aspartic UV is an attractive solid colour floor coating with excellent UV Stability. It is durable and practical which means that it can be applied effectively in most environments including garages, hangars and residential spaces. Because it adheres effectively to most substrates, it remains one of the industry's most preferred systems when compared to epoxies or polyurethanes.

Features and Benefits

- Suited to most environments
- Crack and chip resistant
- UV stable
- 3 times more durable than epoxy
- Effective colour and gloss retention
- Environmentally friendly
- Available in 9 colours

RX Abstract Stain System

A top-of-the range decorative flooring system that is highly aesthetic yet offers superior durability. A pigmented dye is used to stain the concrete which allows for endless design possibilities

Features and Benefits

- 100% UV resistant
- Excellent colour retention
- Abstract finish creates a feeling of depth and variation
- Available in matt or high-gloss
- Highly durable

RX Décor-Quartz

RX Décor Quartz is an extremely durable system with industrial strength that will add new life and appeal to existing, unprotected concrete floors. This attractive coating will ensure a decorative non-slip surface that will enhance any floor that it is applied to. It is ideally suited to heavily trafficked areas such as garages, entertainment areas etc.

Features and Benefits

- High traffic coefficient
- Ideal for indoor or outdoor use
- Good chemical resistance
- Superior impact resistance and durability
- Available in a wide assortment of colours
- Non-slip

RX Décor-Chip

A highly durable and aesthetic finish to concrete floors which will maintain its original features long after application. It is ideal for use in high traffic areas, such as garages, shopping centres and entertainment facilities.

Features and Benefits

- UV Stable
- Ideal for indoor and outdoor use
- Easy to maintain
- Crack and chip resistant
- Extremely durable
- Environmentally friendly
